

The West Arm Lodge  
and Restaurant  
Lake Nipissing, Near North of Ontario

## Black Bear Hunt Information 2010

- Location:** Western end of Lake Nipissing, hunting the Sudbury and North Bay Districts, which are two of Ontario's prime Black Bear hunting areas.
- Season:** Mid of August until end of October 2010
- Length of hunts:** 7 days hunt, arrival Saturday afternoon, departure the following Saturday morning. Sunday hunting is permitted.
- Hunts:** Hunting over baited locations which are reached with your own vehicle. These locations are from one to forty miles from the Lodge via forest access roads.
- Guiding:** We work together with a very experienced guide, a skilled black bear hunter himself. He has been born and raised in the area and is familiar with every inch of our Bear Management Area of 540 km<sup>2</sup>!
- ATV's:** Due to the road conditions at certain areas, ATV's would ease their accessibility. Please advise, if you would like to rent one of ours or if you intend to bring your own.
- Fishing:** As prime hunting times for black bear are early morning and late afternoon thru early evening, one of our 16' Lowe Boats with 15hp Yamaha motor is included in your package. Fishing for Walleye, Northern Pike, Small & Largemouth Bass, Muskie and Panfish is very satisfying in our lakes.
- Reservation:** We are looking forward to your booking by e-mail or phone. With our confirmation you will get our terms and conditions or you may want to check them in advance on our website: [www.thewestarmldodge.com](http://www.thewestarmldodge.com).
